Echoes, 2023: pages 214–221

This is a clarification for the yoke instructions on page 218–219. There is no error in this section of the pattern, but due to a combination of factors it is possible to misread the instructions.

In the instructions for Increase Round 2, the paragraph ending right at the top of page 219 has the stitch counts for all sizes.

The next paragraph has the heading:

2nd, 3rd, 4th, 5th, 6th, 7th, 8th and 9th sizes only

This means that the entries listed apply only to the sizes listed in the heading. In this case, there are no entries for the 1st size; for size specific headings, entries for any other sizes are omitted.

So as the second entries are for the 3rd size, for the 3rd size the instructions read: K6, * m1, k13; rep from* to last 6 sts, k6. This gives 320 sts.

In the layout for Echoes, you will also see that there are more brackets breaking down the sizes into small groups when all sizes are listed, with just one opening and closing bracket where only a select number of sizes are listed.
